About Me

Resourceful Front End Web Developer bringing in-depth knowledge of javascript frameworke (React js) and latest technology trends to produce clean website design. Experience handling complex HTML and CSS coding, design and extensions to meet organization's front-facing internet needs. Detail-oriented collaboration with others to define project expectations and demand. Hands-on testing and demance thresholds.

Education

- Web Development (self-education)

- Faculty Of Dentistry Egyptian Russian University

Work experience

front end developer
freelancer

- Generated design frameworks designed to encourage maximal user response rates
to add placements

- Wrote clean HTML and CSS code, integrating design, extensions and third-party
apps according to web development plansapps according to web development plansto add placements

- Tested site compatibility across multiple browers and devices, uncovering and
debugging issues and addressing inconsistencies

- Assembled and addressed technical and design requirements, integrating
user-facing and front-end elements to maintain web presence effectiveness

- Worked with back-end-developer to define web project scopes that meet
organizational initiatives and demand.
